1. Thou hast concluded not, concluded not correctly if you think I am done with you and all that I have is in thine hand, for **I am bringing forth from your hand a new generation of Me-seekers** who worship afar off won't; who will combine science in religion in their intellect not, but come to Me for My heart and let My intellect/river/presence flow, which will reveal every secret known to man and coming; and reveal at my knee in knee-ology and not theology will it be, become; **and behold the man of many shadows; the man of light in whom is no shadow or variableness of turning. Amen.** Lightsource Me. Visible Me, invisible Me, visible you, tangible you, empirical you; you Me'd into you and you Me'd into Me and covenant complete now brings forth My brand not, My brandishing not, but **the greatest meekness yet ever held, beheld; them beholding the birth of their son not, Mine; in them, through them, and fathers becoming; mothers all.** I love you.
2. Conclude not that all is finished or complete but yet coming and competing not; all comes clearer and completing My all who seek Me and let Me/My river flow, rising, arising and past beyond rivers of thought of commerce, science, religion, ever. I love you.
3. No hands off. Hands on in such tenderness, joy, love, respect, honor, deference to My word which lives and reigns in Me. I love you. Reign-er of My word-declarer, you are. Amen.
4. Think it not strange the trials of your **faith substance; substance yes and amen and subject not to time, space, distance, relativity, or empirical-thought.** I love you.
5. Freedom maker not, **freedom revealer to My of every label and tying their hands not but taking their hands and joining them across every continent, label, and division-point; you do now; existence of only Me.**
6. See and behold I Am coming.
I am I Am.
Thank you.
Amen not, amen and amen squared, cubed, and seventh'd. Amen.

7. Thank you lover of Me, Mine and My body all.
Such respect you love/do. Thank you. Amen.
More later, in hours.
Amen.
